

# Essential Education

Essential Education (EE) is the self-paced supplemental online program that is accessible to students 24/7. Each time you access EE, you will be asked if you are working during class hours or outside class hours - it is important that you choose the correct option.

You may be placed in 2 separate courses within EE - CASAS GOALS Academy or GED Academy - depending on your level of understanding in mathematics and reading.

## Accessing EE:

- Plug in headphones with the volume on before signing in
- Go to [essentialed.com/start/daytonastate](http://essentialed.com/start/daytonastate)
- Sign in using your DSC email and student ID# (password)
- Select whether you are working during or outside class hours
- Choose which topic you'd like to study

Note: Access to EE is limited - Your account will **automatically be deactivated** after 10 days of no participation.
